EDUCATION

Master of Science in GIS and Remote Sensing

University College Dublin, Dublin, ROI

Expected Aug. 2024

Bachelor of Arts in Environmental Studies

Vassar College, Poughkeepsie, NY, USA

May 2024

- GPA: 3.79/4.00; Departmental Honors
- Cartography/Data Visualization with GIS, Spatial Analysis with GIS, Data Science

University of Edinburgh, Edinburgh, Scotland

Dec. 2022

- Data Science in Ecology and Environmental Studies

PROFESSIONAL EXPERIENCE

Sustainability Fellow, Office of Sustainability, Vassar College

Jul. 2024 – Jul. 2026

- Collected and managed campus sustainability data for use in classes, student projects, and research and by the Office of Sustainability
- Assisted the Director of Sustainability in mentoring Department interns working on campus focused projects (waste audits, mapping, energy metering, etc.).
- Laboratory teaching assistant for Introduction Environmental Science including designing the lab section of the course.
- Designed, built, and maintained the campus sustainability map and arboretum mapping through ArcGIS.

Invasive Species Management Intern, The Preserve at Vassar, Vassar College

Jan. – May. 2024

- Executed land management procedures, including clearing invasive species, breaking beaver dams, and propagating native plants
- Took the initiative to digitize tree gapping through ArcGIS and analyzed tree density change over time

Research Assistant, Environmental Research Institute, Vassar College

Jun. 2023 – Dec. 2025

- Conducted benthic chamber and solute tracing experiments in the field, collecting water samples and using a YSI instrument
- Tested ion levels in water samples through an ion chromatograph
- Completed a literature review of beaver wetland hydrology
- Compiled conclusions accepted for a poster presentation at a key earth science conference

Research Assistant, Undergraduate Research Summer Institute, Vassar College

May. – Jul. 2022

- Trained and proficient in the use of GIS and GPS in fieldwork
- Georeferenced historic maps to mark locations of buildings affected by the creation of the NYC water system
- Developed a 3D model of a reservoir and compiled large amounts of data to support research
- Delivered final report communicating research findings and key resident histories

Research Assistant, Earth Science Department, Vassar College

Jan. – May. 2022

- Completed spectrophotometry on a series of lake water samples, examining nutrient levels.
- Created a report on findings of nutrient pollution with recommendations on further steps for remediation

SKILLS

Certifications: Coding in R

Platforms: Google Workspace (Advanced), Office 365 (Advanced), ArcGIS (Proficient), QGIS (Proficient), Adobe Suites (Proficient)
