PERSONAL PROFILE

Graduate student in GIS and Remote Sensing specializing in environmental applications with two years of experience working as a Fellow in higher education sustainability. Highly independent problem solver and resourceful while being great at working in teams. Looking for a role that gives me the opportunity to use my GIS and problem-solving skills in climate solutions.

EDUCATION & QUALIFICATIONS

University College Dublin - Master`s degree GIS and Remote Sensing **Expected Aug. 2027**

Vassar College - Bachelor`s degree Environmental Studies **2024**

GPA 3.79/4.00; Cum Laude

HONORS & AWARDS

International Student Scholarship, University College Dublin 2026

Sigma Xi Honor, Vassar College Chapter 2024

The Collins Student Research Fund, Envir. Research Institute, Vassar College 2023

WORK EXPERIENCE

Hydrographic Survey Ship Training | SMART Sea School, INFOMAR **Nov. 2026**

- Trained in safety procedures for general and research vessels.
- Operated hydrographic survey equipment, including CTD, sound velocity profiler, multibeam echosounder (MBES), sub-bottom profiler, grab sampler, ROV.
- Processed MBES data and conducted patch-test calibration to support high-quality data products.
- Analyzed bathymetry, backscatter, CTD, and sound velocity profiles, ROV footage, and biological and sediment samples.

Jill Troy Werner Sustainability Education Fellow | Vassar College **Jul. 2024 to Jul. 2026**

A two-year endowed fellowship within the Office of Sustainability

- Supervised 5 teams, a total of 15 students, conducting data-collection and analysis projects.
- Supported 4 environmental science courses by coordinating laboratory exercises.
- Contributed to Vassar College’s decarbonization efforts and development of its five-year climate action plan.
- Built and maintained 3 sustainability data tools, including a project database and an ArcGIS Pro map, using ArcGIS Pro, R, and Excel.

Research Assistant | Earth Science Dept, Vassar College **Jun. 2023 to Aug. 2024**

Working under Dr. Deon Knights

- Conducted multi-hour benthic chamber and solute tracing experiments in the field, collected water samples.
- Analyzed water samples using ion chromatography and corrected chromatograms.
- Created a model of nutrient removal using GIS and Microsoft Excel in an urban stream.

- Completed an eight-page literature review of beaver wetland hydrology.
- Compiled findings in a poster presentation.

Research Assistant | Anthropology Dept, Vassar College **May to Jul. 2022**

Working under Dr. April Beisaw

- Trained on and proficient in the use of GIS, ArcGIS, and GPS in Field Work.
- Collected and compiled large amounts of data to support research.
- Developed final report communicating research and key stories.

Research Assistant | Earth Science Dept, Vassar College **Jan. to May 2022**

Working under Dr. Kirsten Menking

- Collected a series of water samples across a time continuum
- Completed spectrophotometry on lake water samples, examining nutrient levels
- Created a report on findings of nutrient pollution with recommendations for further steps for remediation

PRESENTATIONS

American Geophysical Union Conference, New Orleans, LA **Dec. 2025**

Poster: “The Effects of Beaver Ponds on Nitrate Uptake in an Urban Stream”

American Geophysical Union Conference, San Francisco, CA **Dec. 2023**

Poster: “The effects of seasonality and nutrient loading on nutrient uptake in an urban beaver wetland”

New York State Archaeological Conference, Orange, NY **Apr. 2023**

Poster: “Champagne and Shadows: Mapping the Costs of City Water”

Poster: “Research Using the New York Poorhouse Spatial Database”

SKILLS

Professional Skills: Teaching, Sustainability, Team Management, Experiment Design, Execution of Experiments, Literature Reviews, Field Research, Geospatial Analysis, Graphic Design, Data Science

Soft Skills: Communication Skills, Problem-solving, Perseverance, Teamwork, Adaptability

IT Skills: Qimera (Software), ArcGIS Pro (Software), ArcGIS Online, Storymaps, QGIS (Software), R (Programming Language), Python (Programming Language), Adobe Suites (Acrobat, Illustrator, Photoshop, Creative Cloud), Global Positioning Systems (GPS), Microsoft 365 (Word, Excel, Powerpoint), Gsuite

INTERESTS

GIS, Remote Sensing, Mapping, Climate Resilience, Climate Adaptation, Environmental Monitoring, Marine Environments, Data Science, Hydrology, Renewable Energy, Wind Energy
